Department: This column denotes the business unit to which the project belongs to.

Customer: This column represents the client of the project.

Project: This column denotes the project of respective client.

Status: This denotes the timesheet review status. By default, the initial billing status of all the Projects would be "Pending".

2. Creating the Timesheet

Select month from month selector and project and click on create button. Once Timesheet is created "Billing Timesheet created Successfully" message is displayed.
